Sandra's 30th At the Hot Springs

October was a month full of preparation and plans. It began with people saved, baptized and visitors in church. It quickly changed the first Friday of the month. My wife Sandra began having severe pain while on a trip with ladies from the church. Turns out she is filled with kidney stones in both kidneys and three are oversized on her left side. She was hospitalized for a week of test because of the intense pain. In this same week Sandra Sáez, the wife of Luis, was diagnosed with the same problem that my Sandra had while pregnant with Elisha. Sandra Sáez is supposed to be on full bed rest, but is doing good getting around a little.

Luis has been taking the reins of most of the responsibility of the church little by little working up to his ordination. God saw fit for him to have it a month early. He began baptizing for the first time and held his first baby dedication. I have spent most of my time travelling back and forth to be with Sandra. A two hours trip one way if you get a fast bus. The bus rides have given me the opportunity to witness, seeing 4 saved during this time. Sandra also got to witness, counsel and invite many to our church while hospitalized. The church people have been helping with the kids. A huge blessing is the lady who we are renting from Rosa, has been seeing to the house and kids when she can. This has given me freedom to be with Sandra.

Sandra is now at home trying to take care of her condition with minimal movement and natural remedies. After the Ordination Service, I will begin preparation for our furlough planned for the end of February. Until we leave for the states, we will say a part of our church in Panguipulli helping in the background where needed. I hope to hit every door between our town and the next biggest one. It is a hour straight road, filled with many little areas of group housing, not to mention the countless house here and there.

Luis and I saw 20 saved, 28 visitors in church and 2 baptized in the month of October. Please pray for Emma's family who have recently been apart of our church, the whole family has been Mormons and now after receiving salvation are slowly getting baptized. Gratefully your Missionaries in Chile.
